

PEDIATRIC TO ADULT CARE

TRANSITION PLAN

- Transitioning young adults who are staying within our health care network are given a new patient packet at their last pediatric visit which contain the following:
 - No-Show Policy
 - Financial Policy
 - Release of Information Form
 - Privacy Notice
 - Registration for Patient Portal
 - How to Obtain Care-After Hours Access
 - Registration Form
 - Patient Intake Form
 - PCMH Brochure
 - Welcome Map
 - Information You Should Know Regarding Your Health Care Treatment as a Minor
 - Patient Experience Document

Their existing patient record is updated based this information at the time of their first adult visit

- Transitioning young adults who go either inside or outside our health care network are given the following information:
 - Release of Information Form
 - Transition to adult care letter from their provider
 - A medical summary, immunizations, along with any medications and/or specialists related to their chronic condition, if any
- The practice uses a monthly adolescent/young adult report to outreach to those existing patients, ages 12 to 17, which have not been seen.
- Patients who do not show for their appointment are given a follow up call and letter that is noted in their record
- Patients who are seen by a health care provider are provided a visit summary, along with the age-appropriate, acute, and/or chronic management educational materials, and information on when to schedule their next visit.
